nusbands were sorry for her. Independent spinsters who put men in the places they belong, expressed surprise at her extravagance in her willingness to pay that sum for a worthless hoot. The question now arises—how much is the average husband worth to a wife? It seems to me that there is so much figuring to be done on the subject that it would lead one into such an entangling labyrinth that it would be hard to discover where one is actually at.

There are mighty good husbands to be found the world over-men who provide liberally or the best they can for the women who loved them well enough to trust their future happiness to them. The poor-bargain husbands are few and far between. A husband worth to a wife all the world if he is faithful striving to do the best he can and givin- her full measure of

they was having a good time, insted of crops. Although Ireland has a flourishing linen trade in Belfast it does not, to any great extent, grow its own flax and the Department has been endeavoring to remedy this. Early in August, 1914, the Department issued a memorandum advising flax-growers to save flax-seed for their sowing requirements the following spring. The procuring of seed during the season of T914-1915 was attended with considerable difficulties. Upon representations of the Department of Agriculture, facilities were obtained, through the intervention of the Foreign Office, for the export of seed from Russia and Holland to this country. Though these supplies helped the flax-growers, it was insufficient to meet their full requirements. A Society of Flax-Growers has been formed, and arrangements have been made for the cultivation of the crop on a more ex-

FAMED WOMAN LAWYER SCORES REPUBLICANISM

She Severely Criticises Record of G. O. P.

Mrs. Margaret C. Kingelsmith, a ember of the Philadelphia bar, widey known as librarian of the University of Pennsylvania Law School, was asked by the Women's Committee of the National Hughes Alliance to speak under its auspices for the "cause of Americanism and National Efficiency." The letter which she wrote in reply follows:

"I have received your communication asking me to give my time to speak for the 'cause of Americanism and National Efficiency.' To the cause of Americanism I am already pledged as a profound believer in the truths of Democracy. To one so be-lieving the absurdity of this call to Americanism' from a body of persons committed to the destruction of all true Americanism through an insiduous attempt to ally our Government with the destinies of foreign countries now engaged in a frenzied contest of elf-destruction, must be apparent.

"The call to a campaign for national efficiency comes with an equally bad grace from those representing a parwhose policy has swept the American flag from the ports of the world, shut the United States up in a deadly provincialism; deadened the inventive genius of the people, and closed to them the doors of that opportunity which, in the days of Democratic ascendency, before the dominance of the Republican party, had ever remained open to all. To that Democratic parwhich has never departed from the faith of the fathers, which has believed in government by the whole people, not by the privileged few, all who care for real self-government must render

their allegiance. "For the re-election of that man who has re-established in four years that freedom the nation nearly lost under its Republican obsession, they must work; for that party whose four years of wisely constructive legislation seem almost miraculous in contrast with Republican inefficiency and inaction they must win an opportunity for yet greater work. I believe it to be the duty of every true American to defeat that party which reviles and des-pises that America and that Americanism which refuses to bear the Re-publican brand; which demands protection for privilege and denies it to stand at my sink to the mass of people; whose success wash dishes and I would mean the defeat of all the ideals, all the hopes, all the aspirahich we of the Democracy are united and resolved to sustain."
